

# Safety in Nursing & Care Homes

Accidents in Nursing & Care Homes can have terrible consequences. Failing to properly manage your Staff's understanding of health & safety can leave your business seriously at risk from both further injuries and from compensation claims.

Safety in Nursing & Care Homes is a 1 day course designed to teach your Staff about health & safety in this special environment and does so in a positive, time-efficient and friendly manner.

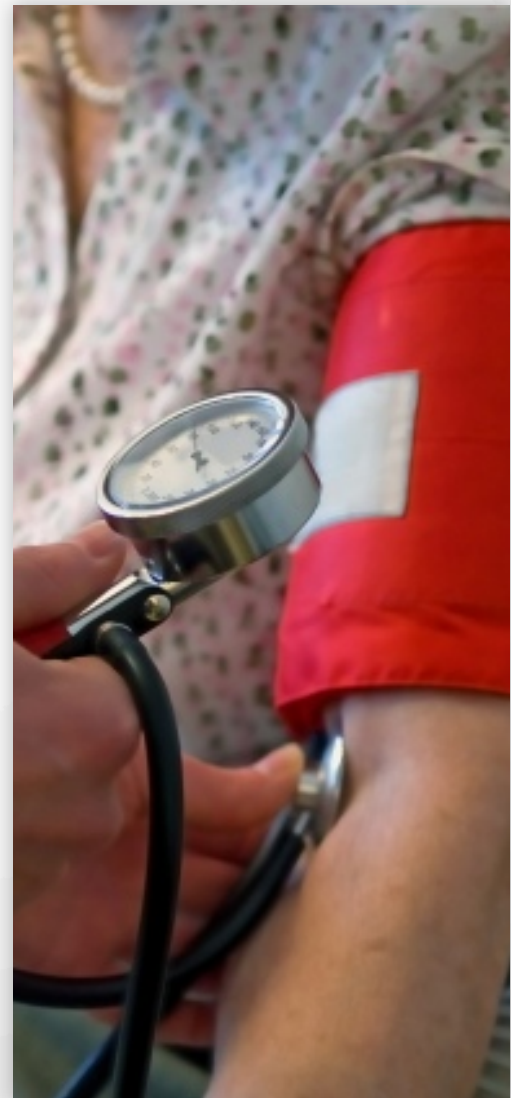

Current course structure includes:

- Understanding responsibilities
- Basics of Risk Assessment
- The legal aspect of accidents
- Accident theory
- Slips, Trips & Falls
- Moving & Handling
- Biological Hazards
- And more....

The course uses group exercises, discussion and demonstrations to help highlight points and develop skill-sets, enabling your Staff to understand why H&S is so important in Nursing & Care Homes.

*"I was very satisfied with the training given and it was certainly value for money. I would not hesitate to use Chalker Risk Management again."*

*Matron Barbara Evans*
