

# Manager & Supervisor Training

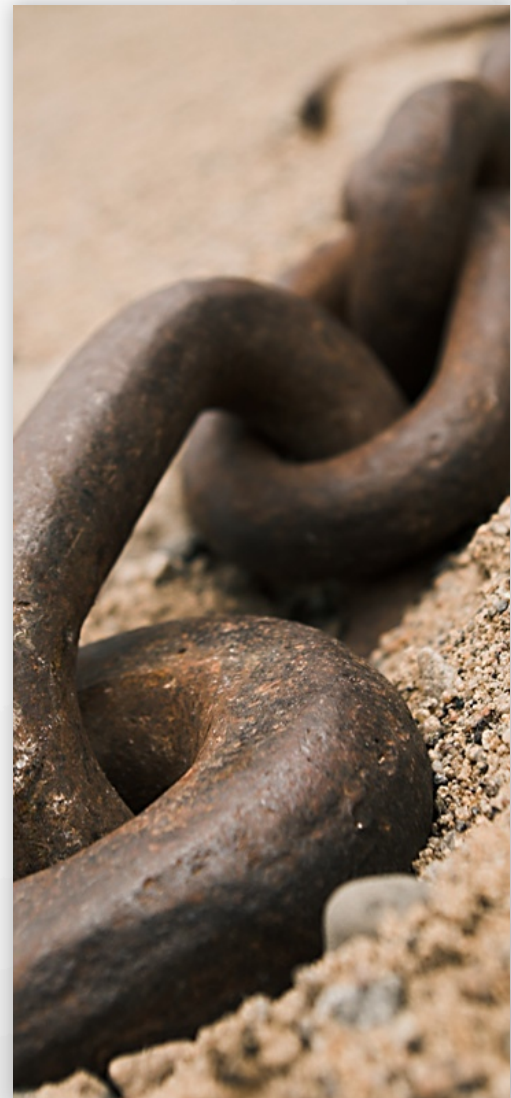

Designed specifically for Middle & Junior Managers, the H&S management course is targeted at helping your business teams understand their duties and responsibilities and how health & safety and the law works in practice.

Concentrating on what managers need to know in both legal and financial terms, this challenging course drives home the message ' that H&S is a *management issue.*'

Current course structure includes:

- ✓ H&S: the financial arguments
- ✓ Why Managers can **never** break the rules
- ✓ How H&S law works
- ✓ Risk Management Systems: the basics- OSHAS 18001 /HSG 65/ BS 8800
- ✓ The Health & Safety Offences Act & Corporate Manslaughter Act
- ✓ s.36 & s.37 under the Health & Safety at Work Act- the specific managers' offences
- ✓ Accidents, Near Misses and RIDDOR: Why you report them
- ✓ Compensation Claims: Your part to play in their investigation

The course uses group exercises, discussion and demonstrations to help highlight points and reinforce the H&S message - that it is the *managers' duty to manage* and although some functions can be delegated, the responsibility, whether they know it or not, is still theirs.

2 day H&S Management Course
